Amendment in Reply to Office Action of March 22, 2006

Amendments to the Specification:

Please replace the paragraph beginning on Page 4, line 3, with the following amended paragraph:

Figure 1 schematically ~~shows~~ shows the composition of a list 20 of programs from a schedule 10 that contains all programs 101, 102, 103, 104, ~~---~~ etc. A program 102 selected from the schedule 10 by the user is "dragged" to the timeline 30, where the programs 110, 111, 102 are graphically represented as bars. The lengths and positions of the bars correspond exactly to the durations and transmission times of the programs. Therefore, the user immediately and intuitively sees the ordering of the selected programs in time.
